FAQ

How to change the settings of my account?

First, you need to access the app and click on your profile. Second, you click on The upper right corner and choose "settings" to start making changes.

You can manage your account in this tab:

1. Activate or deactivate the email notifications;
2. Add an email address
3. Reset your password
4. Delete your account

How can I join the platform?

Once you register for the event, you will receive an email asking you to join the event platform. We then pre-create an account for you in preparation for the events. The confirmation email contains a link that redirects you to your pre-created account where you can edit your profile and then continue to the event home page.

Do I have to download the app to participate in the event?

If you don't want to download another app in your device, it doesn't mean that you can't network and engage in the different activities during the event. The user web app is the most convenient platform for you. You can participate in the event on our web app by using the platform that matched your expectations and needs to enjoy all the features.

When is the event available?

It needs to be live and you need to be part of the attendees' list or use the event code. schedule and meeting requests.

Can I still use my app when it is offline?

Only a part of the app can be accessible offline such as the event homepage, the program, and the exhibitors' list. You can also scan a QR code offline and save it until you have access to the internet later.

What does the "My visit" tab include?

My Visit is a feature that enables you to plan your event according to your availability. When you click on the star next to a session or an exhibitor, we bookmark you or save a seat for the sessions you want to attend. This personalized content is then available in the "My visit" tab. Each attendee can also gather all leads made during the event. He can also manage his schedule and meeting requests.

How do I access the web or mobile app?

You can access the web App on smartphone and computer using this link:

You can download the mobile App on iPhone and Android by using the following link:

You can also scan this QR Code:

You have to use a recent browser like Google Chrome or Mozilla Firefox.
